

# AQUAdura

**A quality, easy-to-use, water-based, clear, protective, & decorative 'sealer' coating for concrete and similar building material surfaces**

## PRODUCT OVERVIEW:

Ability's *AQUAdura* is a single pack, 100% pure acrylic transparent liquid surface coating or 'sealer' for use in exterior or interior situations. It features modern convenient, water wash up technology. It provides a lasting high sheen, semi-gloss finish.

## USE ON:

*AQUAdura* is suitable for use on firm, sound, and clean surfaces. It can be used for:

- ✱ Residential concrete driveways
- ✱ Mortars and grouts
- ✱ Concrete products
- ✱ Plasterboard materials
- ✱ Block masonry
- ✱ Pavers and flagstones
- ✱ Fibre cement panels

## BENEFITS:

*AQUAdura* has been developed to provide durability and long-term performance, providing the following benefits:

- ✱ It is a quality 100% acrylic polymer resin latex-based on advanced water dispersible clear coating formula
- ✱ Because of its formula, the product provides similar performance to solvent clear coatings
- ✱ Provides a finish that is tough and flexible, providing excellent protection from extremes of weather conditions
- ✱ Has excellent UV resistance
- ✱ Being water-based, it has no VOC's (Volatile

Organic Compounds), it is a safe-to-use coating

- ✱ Is easily applied, fast drying, with wash up in water

## USAGE AND APPLICATION:

- ✱ Prepare surface according to instructions before application of *AQUAdura*. The surface should be free from dust, clean, sound and firm
- ✱ Apply *AQUAdura* in temperatures between 12°C and 30°C
- ✱ For optimum durability, apply the product uniformly with a minimum of two coats
- ✱ Can be applied with any normal painting methods

## COVERAGE:

On average, the coverage rate for a 20 litre pail of *AQUAdura* is 50m<sup>2</sup> x 2 coats.

## PACKAGING:

*AQUAdura* is supplied in 20 litre pails and 5 litre pails.

## STORAGE:

For maximum shelf life, *AQUAdura* should be stored un-opened in its original container, out of direct sunlight, and stored in temperatures not exceeding 25°C.

## COMPATIBILITY:

*AQUAdura* can be applied to surfaces internally and externally. It has been produced so that it can be applied to concrete surfaces or comparably porous surfaces. Its suitability for a particular surface should be tested first.

## PRECAUTIONS:

*AQUAdura* is a non-hazardous, non-flammable, non-explosive substance and is classed as a non-dangerous good, however, it is recommended that the following Personal Protective Equipment (PPE) and precautions are followed when handling and using the product:

- ✱ Wear full overalls, gloves safety goggles and a dust mask during mixing
- ✱ Avoid skin and eye contact
- ✱ Always wash hands before eating, drinking, smoking or using the toilet

For further Health and Safety information, please refer to the *AQUAdura* Material Safety Data Sheet (MSDS), which is available from Ability Building Chemical Co.
